Subject index

Acromegaly, the value of plasma prolactin levels in the prediction of the responsiveness of growth hormone secretion to bromocryptine and TRH in 151

Acyl-CoA:cholesterol acyltransferase in rat small intestine, the effect of feeding and fasting on the activity of 493

Aminopyrin elimination, the determination of, for control of the metabolic capacity of the liver in man 157

Ammonia uptake by skeletal muscle in the hyperammonaemic rat 445

Antacid neutralizing capacity in man, effect of food on 209

Bile alcohols, urinary excretion of in normal children and patients with α_1-antitrypsin deficiency during development of liver disease 399

Bile salt transport in intestinal lymph of the rat 23

Calcium channel blockers: a pathophysiologically based antihypertensive treatment concept for the future? 1

Calcium concentration, ionized, the effect of respiratory and metabolic acid-base changes on: *in vivo* and *in vitro* experiments in man and rat 451

Cardiac output, relative roles of heart rate and ventricular stroke volume for the regulation of, during controlled hypotension with sodium nitroprusside in man 9

Carotine, β-, in chronic renal failure, skin content and plasma transport of 63

Catecholamines, effect on sterol synthesis in human mononuclear cells 467

Cerebral autoregulation and drugs 377

Cerebral blood flow and cerebral venous blood gases, effects of sodium nitroprusside on 383, 389

Cholesterol absorption, elimination and synthesis in coeliac disease 285

Cimetidine in man, inhibition of drug metabolism by: dependence on pretreatment microsomal liver function 429

Cirrhosis of the liver, elimination of infused amino acids from plasma of control subjects and of patients with 197

Cirrhotics without overt renal failure, lack of correlation between endotoxaemia and renal hypoperfusion in 417

Coeliac disease, cholesterol absorption, elimination and synthesis in 285

Colitis, ulcerative, serum levels of C-reactive protein in 351

Collagen types synthesized by human and rat adipocyte precursors *in vitro*, characterization of 235

Crohn's disease, non-operated, kinetics of primary bile acids in patients with 135

Crohn's disease, serum levels of C-reactive protein in 351

Cyclic AMP levels, divergent effects of methylxanthines and adenylate cyclase agonists on 293

Diabetes mellitus, contact phase of blood coagulation in 307

Diabetes mellitus, human, renal hypomagnesaemia in: its relation to glucose homeostasis 81

Diabetic subjects, platelets from, show diminished sensitivity to prostacyclin 395

Drugs and cerebral autoregulation 377

Duodenal perfusion, effects of, with sodium taurocholate on biliary and pancreatic secretion in man 97

Encephalopathy, portal-systemic, plasma levels of false neurotransmitters across the brain in 15

Endothelial cell proliferation inhibiting activity, human, in the sera of patients suffering from 'shock' or 'sepsis' 165

Erythrocyte deformability in dialysed and non-dialysed uraemic patients 173

Erythrocyte organic phosphates and whole blood oxygen affinity in patients on continuous ambulatory peritoneal dialysis 463

Fish eye disease: a new familial condition with massive corneal opacities and dyslipoproteinaemia. Clinical and laboratory studies in two afflicted families 41

Furosemide, individual variation in pharmacokinetics and pharmacodynamics of, in young normal male subjects 247

Gastric acid regulates the release of plasma secretin in man 361

Genetic disorders of high-density lipoprotein metabolism and atherosclerosis—What can we learn? 5

Genetic regulation of immune responsiveness and host defence against infections and tumours, correlation between 373

Glucose, blood, effects of intravenous somatostatin and motilin on, and hormonal response to oral glucose 331

Glucose-dependent insulinotropic polypeptide (GIP) in man, the pharmacokinetics of 457

Glucose tolerance in the elderly: the role of insulin and its receptor 55

Graves' disease, subtotal thyroid resection of, serum thyroglobulin and its autoantibody following 203

Haem infusion, effects on biliary secretion of porphyrins, haem and bilirubin in man 257

Haemodynamics and myocardial metabolism of phosphorus depleted dogs: effects of catecholamines and angiotensin II 219

Hypertension, essential, whole body elemental composition in patients with 321

Hyperthyroidism, diurnal metabolic profiles in 269

Hypothyroidism, reversal of decreased hepatic lipase and lipoprotein lipase activities after treatment of 423

Hypertriglyceridaemia, primary endogenous, lipoprotein lipase activity of adipose tissue, skeletal muscle and post-heparin plasma in: relation to lipoprotein pattern and to obesity 433

Indomethacin, effect on renin and aldosterone of normal subjects during low sodium diet 107

Inotropic drugs of the future 441

Insulin receptor binding increased by high carbohydrate low fat diet in non-insulin-dependent diabetic 93

Ischaemia, temporary incomplete, human skeletal muscle metabolism and morphology after 69

Lipomatosis, multiple symmetric, adrenergic regulation of fat-cell lipolysis in 471

Lipoproteins in man, high-density and very-low-density, relationships between the metabolism of: studies of apolipoprotein kinetics and adipose tissue lipoprotein lipase activity 113

Lymphokines, effect on proliferation and collagen synthesis of cultured human synovial cells 407

Macrophages, rat peritoneal, evidence for a particular binding capacity of, to rat glomerular mesangial cells *in vitro* 239

Mannitol, evaluation for use as a probe marker of gastrointestinal permeability in man 485

Medical education, training, practice and research in Europe 439

Mercuric chloride induced autoimmune disease in Brown-Norway rats: sequential search for anti-basement membrane antibodies and circulating immune complexes 127

Monocyte cytotoxicity, divergent effects of methylxanthine and adenylate cyclase agonists on 293

Motilin, intravenous, effects on the blood glucose and hormonal response to oral glucose 331

Neuropeptides and psychopathology 281

Nifedipine, calcium-antagonist, reduced pressor effect of angiotensin II and of noradrenaline in normal man following the oral administration of 263

Nitroglycerin, effect on pulmonary perfusion distribution and gas exchange of normal subjects 177

Noradrenaline release and clearance in relation to age and blood pressure in man 121

Oxyprenolol, effect on renin and aldosterone of normal subjects during low sodium diet 107

Paget's disease of bone, clinical and biological effects of low doses of (3 amino-1 hydroxypropylidene)-1,1-bisphosphonate (APD) in 29

Pancreatitis, chronic calcifying, alkaline phosphatase and acid lysosomal hydrolases in pancreatic juice and fibroblast cultures of patients with 145

Parkinson's patients, lecithin treatment of cognitively impaired 87

Platelets, factors controlling the intrasplenic transit of 191
Schistosomiasis, human, the interaction of zinc and vitamin A in 345
Sodium nitroprusside, effects on cerebral blood flow and cerebral venous blood gases 383, 389
Somatostatin in man, stimulation of gastric mucus output by 37
Somatostatin, intravenous, effects on the blood glucose and hormonal response to oral glucose 331
Splanchic blood flow in portal hypertensive rats, changes in 327
Sympathetic nervous activity and age 91
Synovial fluid fibronectin 8
Tetrahydroxylated bile acids in healthy human newborns 301
Thromboplastin (factor II) activity in human monocytes induced by immune complexes 229
Uraemia, adenylate cyclase activity and cAMP content of human platelets in 379
Uraemia, experimental, effect of parathyroid hormone, calcitonin and growth hormone on cAMP content of growth cartilage in 337
Vasoconstrictor response, forefoot local, to increased transmural pressure, changes after arterial reconstruction in 313
Vasopressin, immunoreactive, in man, metabolic clearance rate of 475
Verapamil, calcium antagonist, inhibition of 1α-hydroxy-vitamin D_3 stimulated bone resorption in tissue culture by 185
Vitamin A in chronic renal failure, skin content and plasma transport of 63
Vitamin B_6 administration, effect on elevated plasma oxalic acid levels in haemodialysed patients 481

European Journal of Clinical Investigation

The Journal of the European Society for Clinical Investigation

Editors-in-Chief K. Winkler, O. B. Paulson

Editorial Board C. E. Andersson, M. Arborelius, Jr, G. Bendixen, N. Juel Christensen, O. Faergeman, J. Giese, S. Jarnum, N. Keiding, L. Korsgaard Christensen, E. Krag, N. A. Lassen, J. Ladefoged, H. Meinertz, N. Nissen, J. Rehfeld, O. Siggaard-Andersen, N. A. Thorn, N. Tygstrup, I. Transbøl, J. Wahren, J. O. Wieth

Volume 12, 1982

Published for the European Society for Clinical Investigation by Blackwell Scientific Publications, Oxford London Edinburgh Melbourne

The copyright for all languages and countries, including the right to reproduce by photographic or other means, is transferred to the European Society for Clinical Investigation as soon as the manuscript is accepted and published by them.

The use of registered names, trade-marks, etc., in this publication does not imply, even in the absence of a specific statement, that such names are exempt from the relevant protective laws and regulation and therefore free for general use.

Printed in Great Britain at the Alden Press, Oxford.

Contents of Volume 12

Number 1, February 1982

Editorial: Calcium channel blockers: a pathophysiologically based antihypertensive treatment concept for the future?
Fritz R. Bühler and Lennart Hulthén 1

Editorial: Genetic disorders of high-density lipoprotein metabolism and atherosclerosis—What can we learn?
Gerd Utermann 5

Letter to the Editors: Synovial fluid fibronectin
S. Carsons, B. B. Lavietes, H. S. Diamond and M. W. Mosesson 8

Relative roles of heart rate and ventricular stroke volume for the regulation of cardiac output during controlled hypotension with sodium nitroprusside in man
M. Zimpfer, S. Fitzal and M. Semsroth 9

Plasma levels of false neurotransmitters across the brain in portal-systemic encephalopathy
C. Cangiano, M. O. Farber, P. Cardelli-Cangiano, F. Rossi-Fanelli, A. Cascino, L. Capocaccia, E. M. Cockerill and F. Manfredi 15

Bile salt transport in intestinal lymph of the rat
G. J. Beckett and I. W. Percy-Robb 23

Clinical and biological effects of low doses of (3 amino-1 hydroxypropylidene)-1,1-bisphosphonate (APD) in Paget's disease of bone
G. Heynen, P. Delwaide, O. L. M. Bijvoet and P. Franchimont 29

Stimulation of gastric mucus output by somatostatin in man
C. Johansson and A. Aly 37

Fish eye disease: a new familial condition with massive corneal opacities and dyslipoproteinaemia. Clinical and laboratory studies in two afflicted families
L. A. Carlson 41

Glucose tolerance in the elderly: the role of insulin and its receptor
J. G. McConnell, K. D. Buchanan, J. Ardill and R. W. Stout 55

Skin content and plasma transport of vitamin A and β-carotene in chronic renal failure
A. Vahlquist, B. Berne and C. Berne 63

Human skeletal muscle metabolism and morphology after temporary incomplete ischaemia
M. Sjöström, P. Neglén, J. Fridén and B. Eklöf 69

Renal hypomagnesaemia in human diabetes mellitus: its relation to glucose homeostasis
P. McNair, M. Sanvig Christensen, C. Christiansen, S. Madsbad and I. Transbøl 81

Lecithin treatment of cognitively impaired Parkinson's patients
J. R. Tweedy and C. A. Garcia 87

Number 2, April 1982

Editorial: Sympathetic nervous activity and age
Niels Juel Christensen 91

Insulin receptor binding increased by high carbohydrate low fat diet in non-insulin-dependent diabetics
G. M. Ward, R. W. Simpson, H. C. R. Simpson, B. A. Naylor, J. I. Mann and R. C. Turner 93

Effects of duodenal perfusion with sodium taurocholate on biliary and pancreatic secretion in man
Ó. G. Björnsson, P. N. Maton, D. R. Fletcher and V. S. Chadwick 97

The effect of oxprenolol and indomethacin on renin and aldosterone of normal subjects during low sodium diet
R. Pedrinelli, A. Magagna and A. Salvetti 107

Relationships between the metabolism of high-density and very-low-density lipoproteins in man: studies of apolipoprotein kinetics and adipose tissue lipoprotein lipase activity
P. Magill, S. N. Rao, N. E. Miller, A. Nicoll, J. Brunzell, J. St. Hilaire and B. Lewis 113

Noradrenaline release and clearance in relation to age and blood pressure in man
P. C. Rubin, P. J. W. Scott, K. McLean and J. L. Reid 121

Mercuric chloride induced autoimmune disease in Brown-Norway rats: sequential search for anti-basement membrane antibodies and circulating immune complexes
B. Bellon, M. Capron, E. Druet, P. Verroust, M.-C. Vial, C. Sapin, J. F. Girard, J. M. Foidart, P. Mahieu and P. Druet 127

Kinetics of primary bile acids in patients with non-operated Crohn's disease
P. Rutgeerts, Y. Ghoos and G. Vantrappen 135

Alkaline phosphatase and acid lysosomal hydrolases in pancreatic juice and fibroblast cell cultures of patients with chronic calcifying pancreatitis
C. Figarella, E. Vogt and P. Hosli 145

The value of plasma prolactin levels in the prediction of the responsiveness of growth hormone secretion to bromocriptine and TRH in acromegaly
S. W. J. Lamberts, A. Liuzzi, P. G. Chiodini, S. Verde, J. G. M. Klijn and J. C. Birkenhäger 151

The determination of aminopyrin elimination for control of the metabolic capacity of the liver in man
K.-O. Haustein, G. Hüller and H. Sensing 157

Human endothelial cell proliferation inhibiting activity in the sera of patients suffering from 'shock' or 'sepsis'
U. Schöffel, K. H. Kopp, H. Männer, F. Vogel and Ch. Mittermayer 165

Erythrocyte deformability in dialysed and non-dialysed uraemic patients
W. Inauen, M. Stäubli, C. Descoeudres, R. L. Galeazzi and P. W. Straub 173

Effect of nitroglycerin on pulmonary perfusion distribution and gas exchange of normal subjects
B. Nemery, S. Vanderlinden-Mahieu, L. Piret, L. Brasseur and A. Frans 177

Inhibition of 1α-hydroxy-vitamin D_3 stimulated bone resorption in tissue culture by the calcium antagonist verapamil
U. Lerner and G. T. Gustafson 185

Number 3, June 1982

Factors controlling the intrasplenic transit of platelets
A. M. Peters and J. P. Lavender 191

Elimination of infused amino acids from plasma of control subjects and of patients with cirrhosis of the liver
H. Vilstrup, D. Bucher, B. Krog and S. E. Damgård 197

Serum thyroglobulin and its autoantibody following subtotal thyroid resection of Graves' disease
U. Feldt-Rasmussen, M. Blichert-Toft, C. Christiansen and J. Date 203

Effect of food on antacid neutralizing capacity in man
F. Halter, R. Huber, W. H. Häcki, L. Varga and C. Bachmann 209

Haemodynamics and myocardial metabolism of phosphorus depleted dogs: effects of catecholamines and angiotensin II
W. Kreusser, H. O. Vetter, U. Mittmann, W. H. Hörl and E. Ritz 219

Thromboplastin (factor III) activity in human monocytes induced by immune complexes
T. Lyberg and H. Prydz 229

Characterization of the collagen types synthesized by human and rat adipocyte precursors *in vitro*
A. Cryer and R. L. R. Van 235

Evidence for a particular binding capacity of rat peritoneal macrophages to rat glomerular mesangial cells *in vitro*
C. H. Dubois, G. Goffinet, J. B. Foidart, C. A. Dechenne, J. M. Foidart and P. R. Mahieu 239

The individual variation in phamacokinetics and pharmacodynamics of furosemide in young normal male subjects
F. Andreasen, C. Kjeldahl Christensen, F. Kjaer Jacobsen, J. Jansen, C. E. Mogensen and O. Lederballe Pedersen 247

Effects of haem infusion on biliary secretion of porphyrins, haem and bilirubin in man
L. R. McCormack, H. H. Liem, W. B. Strum, S. M. Grundy and U. Muller-Eberhard 257

Reduced pressor effect of angiotensin II and of noradrenaline in normal man following the oral administration of the calcium-antagonist nifedipine
H. Vierhapper and W. Waldhäusl 263

Diurnal metabolic profiles in hyperthyroidism
A. J. McCulloch, D. G. Johnston, J. M. Burrin, A. W. Hodson, F. Clark, C. Waugh and K. G. M. M. Alberti 269

Number 4, August 1982

Presidential Address
Giuseppe Mancia 279

Editorial: Neuropeptides and psychopathology
D. De Wied 281

Cholesterol absorption, elimination and synthesis in coeliac disease
M. Vuoristo and T. A. Miettinen 285

Divergent effects of methylxanthines and adenylate cyclase agonists on monocyte cytotoxicity and cyclic AMP levels
T. Herlin and K. Kragballe 293

Tetrahydroxylated bile acids in healthy human newborns
B. Strandvik and S-Å. Wikström 301

Contact phase of blood coagulation in diabetes mellitus
G. M. Patrassi, R. Vettor, D. Padovan and A. Girolami 307

Changes after arterial reconstruction in the forefoot local vasoconstrictor response to increased venous transmural pressure
J. H. Eickhoff and H. C. Engell 313

Whole body elemental composition in patients with essential hypertension
E. D. Williams, K. Boddy, J. J. Brown, A. M. M. Cumming, D. L. Davies, I. R. Harvey, J. K. Haywood, A. F. Lever and J. I. S. Robertson 321

Changes in splanchic blood flow in portal hypertensive rats
L. Blanchet and D. Lebrec 327

Effects of intravenous somatostatin and motilin on the blood glucose and hormonal response to oral glucose
R. G. Long, N. D. Christofides, M. L. Fitzpatrick, D. J. O'Shaughnessy and S. R. Bloom 331

Effect of parathyroid hormone, calcitonin and growth hormone on cAMP content of growth cartilage in experimental uraemia
W. Kreusser, R. Weinkauff, O. Mehls and E. Ritz 337

The interaction of zinc and vitamin A in human schistosomiasis
M. M. Mikhail and M. M. Mansour 345

Serum levels of C-reactive protein in Crohn's disease and ulcerative colitis
E. A. Fagan, R. F. Dyck, P. N. Maton, H. J. F. Hodgson, V. S. Chadwick, A. Petrie and M. B. Pepys 351

Gastric acid regulates the release of plasma secretin in man
G. R. Greenberg, R. F. McCloy, J. H. Baron, M. G. Bryant and S. R. Bloom 361

Number 5, October 1982

Editorial: Correlation between genetic regulation of immune responsiveness and host defence against infections and tumours
Guido Biozzi 373

Editorial: Drugs and cerebral autoregulation
D. Gordon McDowall 377

Adenylate cyclase activity and cAMP content of human platelets in uraemia
J. Vlachoyannis and W. Schoeppe 379

The effects of sodium nitroprusside on cerebral blood flow and cerebral venous blood gases. I. Observations in awake man during and following moderate blood pressure reduction
L. Henriksen, O. B. Paulson and M. Lauritzen 383

The effects of sodium nitroprusside on cerebral blood flow and cerebral venous blood gases. II. Observations in awake man during successive blood pressure reduction
L. Henriksen and O. B. Paulson 389

Platelets from diabetic subjects show diminished sensitivity to prostacyclin
D. J. Betteridge, K. E. H. El Tahir, J. P. D. Reckless and K. I. Williams 395

Urinary excretion of bile alcohols in normal children and patients with α_1-antitrypsin deficiency during development of liver disease
G. Karlaganis, A. Nemeth, B. Hammarskjöld, B. Strandvik and J. Sjövall 399

The effect of lymphokines on proliferation and collagen synthesis of cultured human synovial cells
D. P. Parrott, R. L. Goldberg, S. R. Kaplan and G. C. Fuller 407

Lack of correlation between endotoxaemia and renal hypoperfusion in cirrhotics without overt renal failure
A. Gatta, L. Milani, C. Merkel, R. Zuin, P. Amodio, L. Caregaro and A. Ruol 417

Reversal of decreased hepatic lipase and lipoprotein lipase activities after treatment of hypothyroidism
S. Valdemarsson, P. Hedner and P. Nilsson-Ehle 423

Inhibition of drug metabolism by cimetidine in man: dependence on pretreatment microsomal liver function
W. Röllinghoff and G. Paumgartner 429

Lipoprotein lipase activity of adipose tissue, skeletal muscle and post-heparin plasma in primary endogenous hypertriglyceridaemia: relation to lipoprotein pattern and to obesity
M.-R. Taskinen, E. A. Nikkilä and T. Kuusi 433

Number 6, December 1982

Editorial: Medical education, training, practice and research in Europe
Gordon Wolstenholme 439

Editorial: Inotropic drugs of the future
H. Pouleur, J. M. Detry and G. Mancia 441

Ammonia uptake by skeletal muscle in the hyperammonaemic rat
G. Hod, M. Chaouat, Y. Haskel, O. Z. Lernau, S. Nissan and M. Mayer 445

The effect of respiratory and metabolic acid–base changes on ionized calcium concentration: *in vivo* and *in vitro* experiments in man and rat
H. Oberleithner, R. Greger and F. Lang 451

The pharmacokinetics of porcine glucose-dependent insulinotropic polypeptide (GIP) in man
D. L. Sarson, R. C. Hayter and S. R. Bloom 457

Erythrocyte organic phosphates and whole blood oxygen affinity in patients on continuous ambulatory peritoneal dialysis
A. Agrafiotis, F. Camus, J. Rottembourg, L. Eugene and M. Legrain 463

Effect of catecholamines on sterol synthesis in human mononuclear cells
W. Krone, F. Hildebrandt and H. Greten 467

Adrenergic regulation of fat-cell lipolysis in multiple symmetric lipomatosis
H. Kather and F. Schröder 471

Metabolic clearance rate of immunoreactive vasopressin in man
M. Benmansour, M. Rainfray, F. Paillard and R. Ardaillou 475

Effect of vitamin B_6 administration on elevated plasma oxalic acid levels in haemodialysed patients
P. Balcke, P. Schmidt, J. Zazgornik, H. Kopsa and E. Deutsch 481

Evaluation of mannitol for use as a probe marker of gastrointestinal permeability in man
M. F. Laker, H. J. Bull and I. S. Menzies 485

The effect of feeding and fasting on the activity of acyl-CoA:cholesterol acyltransferase in rat small intestine
P. Helgerud, R. Haugen and K. R. Norum 493
